### **Accidents involving bumps to a Pupil's head**

The consequence of an injury from an accident involving a bump or blow to a pupil's head is not always evident immediately and the effects may only become noticeable after a period of time.

Where emergency treatment is not required a 'Head Bump' letter will be sent home to the Parent/guardian.

### **Transport to hospital or home**

The Head Teacher will determine the appropriate action to be taken in each case. Where the injury requires urgent medical attention an ambulance will be called and the pupil's parent or guardian will be notified. If hospital treatment is required, then the pupil's parent/guardian will be called for them to take over responsibility. If no contact can be made with parent/guardian or other designated emergency contacts, the Head Teacher may decide to transport the pupil to the hospital.

Where the Head Teacher makes arrangements for transporting a student then the following points will be adhered to:-

- Where possible students will be transported home in line with their usual arrangements;
- If staff are required to transport a student, only staff cars insured to cover such transportation will be used;
- If required, a second adult will be present to provide supervision of the injured pupil.
